EDUCATION AND TRAINING

08/2024

Bachelor of Computer Applications - Computer Science, Application Development

Bhagawan Mahaveer Jain College
Geetha Rd, Swarna Nagar, Robertsonpet, Karnataka

- I have completed a Bachelor of Computer Applications (BCA), where I built a strong foundation in programming, database management, and web development.
- As a PHP Developer, I was responsible for designing, developing, and maintaining dynamic web applications and backend systems. I built scalable and secure server-side logic using PHP and frameworks like CodeIgniter.

SUMMARY

Passionate PHP developer with a strong focus on building scalable, high-performance web applications. Experienced in developing dynamic websites, RESTful APIs, and backend systems using modern PHP frameworks. Adept at writing clean, maintainable code and optimizing application performance. Skilled in working with databases, server-side logic, and integrating third-party services. Continuously exploring new technologies and best practices to deliver efficient and secure solutions. Known for problem-solving, attention to detail, and a commitment to delivering quality user experiences.

SKILLS

- PHP development
- API integration
- MySQL database
- AJAX technologies
- Web application design
- User interface design
- Team collaboration
- Project management
- Problem solving
- Client engagement
- Software testing
- Web and application servers
- Proficient in HTML5
- Project management experience

EXPERIENCE

PHP Developer SYED NAZEER AHMED | Bengaluru, IN

03/2025 - Current As a PHP Developer, I was responsible for designing, developing, and maintaining dynamic web applications and backend systems. I built scalable and secure server-side logic using PHP and frameworks like Laravel/CodeIgniter. I developed RESTful APIs to support frontend applications and integrated third-party services such as payment gateways, authentication systems, and external APIs. I worked extensively with databases like MySQL to design schemas, write optimized queries, and ensure data integrity. I collaborated with frontend developers to ensure seamless integration of user-facing elements with server-side logic. I also handled debugging, performance optimization, and code refactoring to improve application efficiency. Additionally, I implemented security best practices, managed deployments, and maintained version control using Git. I continuously
